

Quiz 3 : Academic Norms and Ethics

December 2021

1 Question 1

1.1 Question

What's the definition of plagiarism and multiple submissions? (2pt)

1.2 Answer

1.2.1 plagiarism

The failure to acknowledge ideas, research, or language taken from others, whether intentional or unintentional. The Graduate School requires citations whenever students either directly quote or indirectly draw upon and benefit from the work or scholarship of others.

1.2.2 multiple submissions

Submitting work from one course for a grade or credit in another, without first obtaining express written permission from both course instructors.

2 Question 2

2.1 Question

Please learn about the Schön scandal and analyze the academic misconduct involved (in 50 words). (3pt)

2.2 Answer

Schoen fooled many people, including the editors of respected journals, with so-called "molecular transistors" by falsifying the data. So arrogant was he that he used the same data in different academic papers and was eventually caught. It shook the scientific community and became the most notorious scientific fraud scandal ever.

3 Question 3

3.1 Question
